

# 25 Years

1986, Frank Rinn (Heidelberg/Germany) started building the first electronic resistance drill for wood analysis - and later received five research and innovation awards (1989-1992-1997-1998-2012) for having developed and established this method and its application on trees, timber, and structures.

## RESISTOGRAPH®

Trademark, invented and owned by Frank Rinn, registered in 30+ countries (EU, USA, ...)

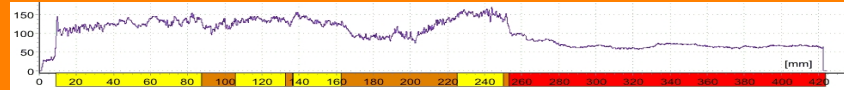

**RESISTOGRAPH® exclusively comes from RINNTECH®:**

high performance resistance drills and skills for professionals, experts, and scientists.
